

Table of contents

1	Executive Summary	5
2	Introduction	15
2.1	Objectives of the study	15
2.2	Scope of the study	18
2.3	Who we are	22
3	The world market for rail equipment	23
3.1	Baseline 2007–09	23
3.2	Forecast 2015/16	27
3.3	Outlook 2020	33
4	The world market for infrastructure	39
4.1	Overview	39
4.2	Very high speed, mainline, and exclusive freight infrastructure	43
4.3	Light rail and metro infrastructure	48
4.4	Outlook 2020	51
5	The world market for rolling stock	53
5.1	Overview	53
5.2	Very high speed and high speed	57
5.3	Locomotives	61
5.4	Multiple units and coaches	65
5.5	Freight wagons	70
5.6	Light rail and metro	72
5.7	Outlook 2020	76

6	The world market for rail control	77
6.1	Overview	77
6.2	Very high speed, mainline and exclusive freight rail control	79
6.3	Light rail and metro rail control	81
6.4	Outlook 2020	83
7	The world market for services and project integration	85
7.1	Overview services	85
7.2	Services for very high speed, mainline, and exclusive freight	85
7.3	Services for light rail and metro	88
7.4	Project integration	90
8	Strategic insights for the rail industry	91
8.1	Long-term impact of the financial crisis: A two-speed world	91
8.2	Megatrends, a tailwind in the crisis	92
8.3	Financial crisis and the megatrends	99
8.4	Conclusion	100
9	Appendix	103
9.1	Methodology	103
9.2	Glossary	109
