1 Brief description

For over 17 years, Rail Business has been the leading weekly industry report for the entire rail transport market. It offers compact, exclusive insights into freight and passenger transport – for both state-owned and private railways – and provides decision-makers with sound guidance in a dynamic market.

Exclusive content:

Rail Business is published in print and as a protected PDF and provides compact news, background reports, interviews and commentary on all relevant topics: politics, law, railway companies, industry, operations, infrastructure, technology, personnel, services, associations and events. The weekly offering is supplemented by an email news service with the latest news and breaking stories. Special editions on key topics regularly round off the portfolio.

Target group:

Rail Business is aimed specifically at executives and decision-makers in railway transport and infrastructure companies (EVU/EIU), purchasers of regional rail transport services, the shipping industry, the railway industry, service providers, transport policy makers, public institutions and associations—primarily in Central Europe and German-speaking countries.

Rail Business – precise, exclusive, and indispensable for everyone who is helping to shape the future of rail.

Rail Business Special issue Freight Railways – Part 1

effective from 01.01.26

1. Special edition Freight Railway

The special edition **Güterbahnen**, published once a year, provides a comprehensive and well-founded overview of the economy, technology, trends, and companies in the rail freight sector.

It highlights for shippers and logistics companies what rail freight transport can achieve – and who the key players are.

Readers gain valuable insights into successful operational and marketing concepts, discover technical innovations that make rail freight more efficient, and learn about the strategies being developed to meet future challenges.

Each year, the magazine focuses on a **key topic** that addresses the most pressing issues in the

industry. Articles, interviews and market analyses shed light on major developments of recent months – past, present, and future. This ensures the magazine remains informative and relevant long after its publication date.

2. Frequency of publication

Once a year (integrated into Rail Business and distributed at the transport logistic trade fair), additionally available throughout the year at relevant industry events.
